

Fell Small Trees

AHCPCM203

Ballistic Training Solutions Pty Ltd

ABN: 30 156 084 481

Provider No: 41097

Description

This unit of competency describes the skills and knowledge required to fell small trees where hazards have been assessed as low risk.

It is an introductory or base-level unit that covers felling procedures for small trees.

This unit applies to individuals who undertake defined activities with specialized tools and methods, work in a structured context, apply knowledge and skills to demonstrate autonomy and limited judgement, and provide solutions to a limited range of predictable problems. Work is implemented with low risk work procedures and to comply with Safe Work Method Statement documentation.

Licensing, legislative, regulatory, or certification requirements apply to this unit in some states and territories at the time of publication, and may differ according to jurisdiction. Specific determination should be sought through the relevant state or territory.

Pre-requisite Unit

Successful Completion and award of AHCMOM213 Operate and Maintain Chainsaws is required before entry into this unit.

Career Opportunities

Primary producer / Research officer / National Parks & Wildlife Officers / Professional shooter/culler / Aerial Culling Operators / Conservation & Environment Officers / Farm Hands / Rural Operators / Property Owners

Delivery Timeframe

This course is delivered in a face to face workshop format incorporating knowledge based theory assessment and field practical assessment activities conducted over a one to two day period depending on the knowledge skill and competency of participants.

Course entry requirements

No occupational licensing, legislative or certification requirements are known to apply to this unit at the time of publication.

Assessment Conditions

The candidate must provide evidence that they can:

- prepare, transport and appropriately position support tools to minimise felling delays
- assess topography and site conditions, identify factors influencing tree felling operation and confirm findings with supervisor
- receive instructions for tree felling operations from supervisor and clarify prior to undertaking work
- clear fall zone of obstacles and articles which may be damaged by felled tree
- confirm first aid and emergency personnel, equipment and procedures
- identify site hazards, assess risks and report to supervisor
- record and implement work health, safety, site, environmental and traffic control measures
- select, check, use, maintain and store suitable safety and personal protective equipment
- confirm work zone with work crew and monitor location of other personnel
- determine natural direction of fall, safe fall zone and exclusion zone and confirm with supervisor
- determine standard tree felling techniques by ground conditions and state of canopy
- establish clear escape route appropriate to site
- safely operate a chainsaw to fell small trees
- monitor fall of tree and movement on ground until felled tree is stable
- take corrective action in response to changing conditions or problems encountered.

Note: This qualification or specific units of competency may satisfy some requirements for State/Territory licensing. Participants seeking certification & licensing should check the requirements with appropriate authorizing bodies should check the requirements with certifying bodies.
