

10660NAT Course in Swimming Pool Safety Inspections

DESCRIPTION

This unit describes the performance outcomes, skills and knowledge required to competently perform inspections of regulated swimming pools and give pool safety certificates and nonconformity notices in accordance with legislative requirements. It includes the ability to operate within a regulated framework to perform pool safety inspections, including applying the pool safety standard in deciding whether a pool is a complying pool. It also includes reporting inspection outcomes in the manner and timeframe prescribed by legislation and to discuss inspection outcomes and options for rectification action with pool owners (or their agents). This unit is relevant to the initial inspection of regulated pools, as well as to reinspection after the issuance of a nonconformity notice following initial inspection. This unit applies to individuals licensed by the Queensland state building industry regulator to conduct inspections of regulated swimming pools. Those undertaking this function would work independently, use significant discretion and judgement and take responsibility for the quality of their work.

OVERVIEW

This course is delivered in a face to face workshop format incorporating knowledge-based theory assessment and field practical assessment activities conducted over a two-day period depending on the knowledge skill and competency of participants.

PREREQUISITE UNITS

Nil

CAREER OPPORTUNITIES

Council Officer | Pool Inspector | Builder | Certifier | Pool
