

AHCPMG307 Apply Animal Trapping Techniques

DESCRIPTION

This unit of competency describes the skills and knowledge required to trap and hold live animals for release, transportation or destruction. Trapped animals can be native animals, domestic animals, animals determined to be pests or feral animals.

The unit applies to individuals who work under broad direction and take responsibility for their own work. They use direction and judgement in the selection, allocation and use of available resources.

State or territory licensing, legislative or certification requirements apply in some jurisdictions.

OVERVIEW

This course is delivered in a face to face workshop format incorporating knowledge-based theory assessment and field practical assessment activities conducted over a one to two-day period depending on the knowledge skill and competency of participants.

PREREQUISITE UNITS

Nil—However students should have a genuine occupational need and be a fit and proper person for the regulated use of traps and poison for vertebrate pest control per State/Territory legislation.

CAREER OPPORTUNITIES

Primary producer | Research officer | National Parks & Wildlife Officers | Professional shooter/culler | Aerial Culling Operators | Conservation & Environment Officers | Farm Hands | Rural Operators / Property Owners.

ASSESSMENT CONDITIONS

This unit is delivered in a workshop format with students completing underpinning knowledge assessment and application PRIOR to undertaking practical assessment in the workplace or simulated workplace.

Students must have access to a suitable workplace environment that requires the planning application and use of vertebrate pest baiting programs.

Duration will vary depending on the existing knowledge and skills of participants but is generally targeted at a min of two-day face to face program for experienced operators.

Each Students requirement being considered, some homework activity and student time management will be important to ensure we maintain the volume of learning requirements on this unit.

Specifications:
Traps, materials and appropriate permits and approvals

Timeframes:
As per job requirement.
