

CERTIFICATE 3 GUARANTEE

A QUEENSLAND GOVERNMENT INITIATIVE

Interested in Completing Your Certificate III in Conservation and Ecosystem Management?

Are you Eligible for enrolment in a government funded Certificate III in Conservation and Ecosystem Management?

ATTENTION All Queensland Eligible Students

Enrol in a Nationally Recognized Qualification funded by the Queensland Government Certificate III in Conservation and Ecosystem Management from just **\$70** Under the Certificate 3 Guarantee Program

What is Certificate 3 Guarantee?

The Certificate 3 Guarantee provides a government subsidy to support eligible individuals to complete their first post-school certificate III qualification.

Are you Eligible?

This program is open to individuals who are:

- Queensland residents aged 15 years or over
- No longer at school (with the exception of VET in Schools students)
- Australian or New Zealand citizens or Australian permanent residents (including humanitarian entrants), or a temporary resident with the necessary visa and on the pathway to permanent residency
- Not holding, and not enrolled in, a certificate III level or higher qualification (not including qualifications completed at school and foundation skills training)

Contact the Team at Ballistic Training Solutions today to discuss your eligibility or further details on the Qld Government Certificate 3 Guarantee Program.

What level of subsidy is available? The investment priority or importance of the training determines the size of the government subsidy. Training in vocational areas that align with important economic and industry skills needs will receive a higher government subsidy.

Do I need to contribute to the cost of training? Given the benefits that training provides to individuals, students undertaking certificate III level training and non-concessional students undertaking lower-level vocational training are required to contribute to the costs of their Training through a co-contribution fee. The amount of your out-of-pocket expense will vary depending on the course you undertake and the training provider you choose. The fee may be paid on your behalf by an employer or another third party, but cannot be paid by the training provider.

AHC31420 Certificate III in Conservation and Ecosystem Management

Qualification Description

This qualification provides the skills and theoretical and practical knowledge for work or further learning in the conservation and ecosystem management industry. The qualification provides for work roles encompassing a broad range of skills, or can be focussed on one or more specialisations, including indigenous land management, ecological restoration, land, parks and wildlife management, pest controller, conservation earthworks, marine operations, fire management. Individuals with this qualification perform a range of conservation and ecosystem management activities including, site restoration, rehabilitation and renewal and management of the rural and natural landscapes, degraded sites and marine environments. They contribute to the preservation and maintenance of wildlife and their habitat in the natural ecosystem, parks and reserves. Activities frequently involve working with and preservation of indigenous culture and heritage resources. No licensing, legislative or certification requirements apply to this qualification at the time of publication.

Applicable occupations are:

Park Ranger / Wildlife Officer / Primary producer / Research officer / Pest Management Specialist
